the *Journal of Applied Behavior Analysis* (1974), and the *Journal of Experimental Psychology: Applied* (1975).

There are a number of reasons why the *Journal of Applied Behavior Analysis* is the most widely cited journal in the field. First, it is the only journal in the field that is published by a professional organization (the Association for Behavior Analysis).

Second, it is the only journal in the field that is published by a publisher that is known for its high quality of publication (Sage Publications).

Third, it is the only journal in the field that is published by a publisher that is known for its high quality of editing (Sage Publications).

It is important to note that the *Journal of Applied Behavior Analysis* is not the only journal in the field that is published by a publisher that is known for its high quality of all of the above (Sage Publications).

There are a number of other journals in the field that are published by publishers that are known for their high quality of all of the above (Sage Publications).

CHAPTER 2
PRODUCTION

PRODUCTION | ANALYSIS

Production statistics represent the volume of production of selected manufacturing commodities, electric power generation, precious minerals and pearls, non – metallic minerals and production of meat, fish, milk and egg.

In 2015-2016, electric power generation and sales increased, while the average price of electricity increased. Production of precious minerals increased for most of gems, whereas production of minerals mainly increased. Production of meat rose for all types of meat and fish, as well as the production of egg.

■ PRODUCTION BY THE STATE ECONOMIC ENTERPRISES

Among selected commodities produced by the State Enterprises, the volume of production of most of these commodities declined in 2016-2017 compared to 2015-2016.

The most important increases were recorded for the production of biological products, cotton yarn and kerosene: the production of biological products (in thousand dosage) increased by 20.00%; the production of cotton yarn (in thousand lb) increased by 31.11%; the production of kerosene (in thousand gal) decreased by 45.45%.

Due to the leasing of factories and privatizations, some commodities are no longer produced by State Enterprises. Since May 2013, brick factories are leased to the private sector; asbestos ceiling and blanket factories were also leased while soap and paper production was privatized.

■ PRODUCTION BY THE PRIVATE ENTERPRISES

The production of the selected commodities by Private Enterprises increase in 2016-2017 compared to 2015-2016.

The most important increases were recorded for the production of cooking oil, instant noodles, ready made garment, cement, hardwood conversion, fertilizer and battery; the production of cement (in metric ton) increased by 23.37%; the production of hardwood conversion (in cu.ton) increased by 16.93%; the production of fertilizer (in metric ton) increased by 16.53% and the production of battery (in thousand no.) increased by 18.09%.

■ PRODUCTION OF ELECTRIC POWER

Table 2.3 presents electric power generation and sales in Myanmar. Since 2016-2017, the installed capacity is 5,390 megawatts. The generation increased by 11.92% between 2015-2016 and 2016-2017.

The total volume of electricity sales increased by 14.62% over the same period. Volume of sale to households (column 4) decreased by 3.16%, volume of sales to bulk (hotels, schools, hospitals, offices) decreased by 5.86% and volume of sales to industries decreased by 1.17% .

The high increase for the category “Others” is due to the fact that since August 2012, this category now includes private companies.

The price of 1 kwh (unit sold) was 70.42 kyats in 2015-2016, and this unit price has decreased to 69.02 kyats in 2016-2017.

In 2015-2016, the share of generation that was not sold (unit loss) was 16.09% and it has decreased to 14.06% in 2016-2017.

Table 2.4 presents electric power generation by type of energy. Between 2015-2016 and 2016-2017, thermal increased by 83.95%, diesel increased by 10.66%, hydroelectricity (hydel) increased by 3.67% and gas increased by 21.08% .

Hydroelectricity is by far the main type of energy in Myanmar: it represented 58.87% of the total in 2015-2016 and declined to a share of 54.54% in 2016-2017.

PRODUCTION OF PRECIOUS MINERALS AND PEARLS

The production of pearls increased in 2016-2017 compared to 2015-2016, by 18.16%.

The production of jade decreased by 3.69% between 2015-2016 and 2016-2017.

Jade and gems production include private and joint venture while pearls include public and joint venture production.

PRODUCTION OF MINERALS

Table 2.7 presents the production of non-metallic minerals by the state economic enterprises. The production of lime stone by 75.10% and gypsum increased by 238.97% in 2016-2017 compared to 2015-2016.

Tin concentrated decreased over the same period, by 10%. Since August 2013, coal production includes joint venture.

PRODUCTION OF MEAT, FISH, MILK AND EGG

The number of slaughtered for pig, sheep/goat and cattle has increased by 23.67%, 18.48% and 18.27% respectively in October 2017 compared to October 2016.

The production of meat has increased for pork, chicken, mutton, beef, duck and fish by 23.63%, 18.55%, 18.43%, 18.26%, 15.72% and 2.44% respectively in October 2017 compared to October 2016.

The number of slaughtered for cattle, sheep/goat and pig has increased by 4.54% ,1.97% and 1.16% respectively in 2016-2017 compared to 2015-2016.

The production of meat has increased for all type of meat in 2016-2017 compared to 2015-2016: beef, chicken, mutton ,fish,pork and duck has increased by 4.40%, 2.26%, 1.99%, 1.44% ,1.17% and 0.77%. The production of hen egg and duck egg has risen by 5.98% and 2.40% respectively in 2016-2017 compared to 2015-2016.

The consumption of meat and fish by households remains comparable to the last year. Most of myanmar people usually eat meat and fish when looking at yearly data, the increase was even higher.

Production data for the meat is collected from the Ministry of Agriculture, Livestock and Irrigation .

There are 5,541,260 registered motor vehicles entire in the country in 2015-2016 and 6,337,002 in 2016-2017.

The total of Registered Motor Vehicles increased strongly in the last four years. This lead to a decrease in Yangon City Public and Private Transport. Among domestic public transport, passengers mainly used Railways transport.

The number of international tourists represent those that entered from the entry-gates of Yangon and Mandalay international airports and border tourism gates. The number of tourists visiting Myanmar grew heavily in the last two years. Tourists were mainly Thai, Chinese and Korean.

■ DOMESTIC PUBLIC TRANSPORT

Domestic public transport is presented through four indicators: Railways, Road transport, Inland water transport and Airways. Railways transportation is the main transportation in the public sector with a share of 66% of total public transportation in October 2017.

When comparing October 2016 and October 2017, Railways transport decreased by 14.3% for freight ton-miles and increased by 5.5% for passenger-miles. Road transport increased by 14.6% for freight ton-miles and decreased by 0.7% for passenger-miles when comparing October 2016 and October 2017. Inland water transport decreased by 38.5% for freight ton-miles and 4% for passenger-miles when comparing October 2016 and October 2017.

Over the same period, Airways transport decreased by 33% for freight ton-miles and increased by 66% for passenger-miles.

ROAD TRANSPORTATION

With the adoption of economic reforms in 2011, the Government emphasized the importance of sustained and inclusive development of its people. The Ministry of Commerce made a policy reform for car imports. In consequence, many medium income households could purchase new cars, thus car density increased year after year. Total Registered Motor Vehicles has increased by 9.13% in 2015-2016 and by 14.36% in 2016-2017, compared to the previous year. On the other hand, Public and Private Road Transport has gradually decreased from 2012 to 2016.

Yangon City Private Transport includes bus service. When comparing October 2016 and October 2017, the transport of passengers by Yangon City Private Transport increased by 25% for both passengers and passenger-miles, by 199% increase for number of buses and pick-ups in operation per day, by 70.3% increase for number of trips per day and by 162% increase for gross earnings.

The transport of Mandalay City Private Transport decreased by 12% both for passengers and passenger-miles, by 10.5% for number of buses and pick-ups in operation per day, by 10.7% for number of trips per day and by 11% for gross earning when comparing 2015-2016 and 2016-2017. However, the level of passengers using bus service in Mandalay is not very high because people use mainly their owned two-wheeled vehicles such as motorcycles and bicycles rather than private transportation.

MERCHANT SHIPPING

Merchant Shipping data includes foreign trade and coastal trade. Foreign trade means trading of goods by ship from one port to another between different countries. Coastal trade means trading of goods by ship from one port to another in the same country.

When comparing September and October of 2017 for coastal trade, entry decreased by 4% for vessels and 3% for tonnage, and clearance decreased by 9% for both vessels and tonnage.

Figures about exports include government and private exports on trade account. Sale of goods, whether foreign or national to all foreign trading companies are included. All data exclude exports under military accounts. Exports under diplomatic privileges have been excluded since 1966. Exports are valued at F.O.B, Free on Board (ship or other means of international transport), at port or place of dispatch in the exporting country (including export duties, internal taxes and similar charges to the extent that they remain charged on the goods and passed on to the importers).

Figures about imports include government and private imports on trade account. All data exclude imports under military accounts. Imports under diplomatic privileges have been excluded since 1966.
