CHAPTER 2 PRODUCTION

PRODUCTION ANALYSIS

Production statistics represent the volume of production of selected manufacturing commodities, precious minerals and pearls, non-metallic minerals, electric power generation and sales, production of meat, fish, milk and egg.

PRODUCTION BY THE STATE-OWNED ECONOMIC ENTERPRISES

Table 2.1 presents information about the production of the selected commodities by state-owned economic enterprises. The production of cotton yarn and cotton longyi went up more than half with 59.37% and 66.67% between December 2021 and December 2020, and the production of cotton fabrics remained stable.

When comparing December 2021 and December 2020, the production of pharmaceutical products such as solids, liquids, ointments and similar preparations, tablets, sterile and biological products significantly fell by 38.52%, 45.26%, 14.84%, 45.55%, 23.97%, and 39.70% in particular.

PRODUCTION BY THE STATE ECONOMIC ENTERPRISES

Table 2.2 shows data about the production of the selected commodities by state economic enterprises. The production of furnace oil rose noticeably almost two times whereas the production of wood veneer, fertilizer, crude oil, natural gas, petroleum coke, motor spirit, diesel oil, liquified petroleum gas, and aviation turbine declined by 1.60%, 16.87%, 8.89%, 2.66%, 54.08%, 47.25%, 57.83%, 26.85%, and 20.68% respectively between December 2020 and December 2021.

PRODUCTION BY THE PRIVATE ENTERPRISES

Table 2.3 describes the production of the selected commodities by private enterprises. When comparing December 2021 and December 2020, it can be seen that the production of salt (crude+fine) increased by 61.38% but there was a decrease in the production of beer, cigarettes, alcohol, and sugar, with 14.16%, 74.35%,51.51%, and 13.87%.

PRODUCTI ON OF ELECTRIC POWER

Table 2.4 indicates electric power generation and sales in Myanmar. In December 2021, the total volume of electricity sales decreased gradually by a minority of 8.97% while the total value of electricity sales grew by a total of 11.00% compared to December 2020. The average price of 1 kwh (unit sold) increased marginally from 99.35 kyats in December 2020 to 121.15 kyats in December 2021; it rose by 21.94%.

PRODUCTION OF ELECTRIC POWER GENERATION BY TYPE OF ENERGY

Table 2.5 provides electric power generation by type of energy. It is noticeable that electric power generation by Hydro and Solar is rising significantly by 60.00% and 69.09% between December 2020 and December 2021. By contrast, there was a slight fall in electric power generation by Diesel and Gas (11.23% and 13.84%).

PRODUCTION OF PRECIOUS MINERALS AND PEARLS

Table 2.6 represents the production of precious minerals and pearls. The production of gold in December 2021 was down by a modest 12.44% when compared with the same month of the previous year.

PRODUCTION OF MINERALS EXTRACTION AND NON-METALLIC MINERALS

Table 2.7 gives data on the production of minerals extraction by state economic enterprises. The production of tin tungsten and scheelite decreased by 75% between December 2021 and December 2020.

Table 2.8 shows data on the production of non-metallic minerals by state economic enterprises. The production of coal, gypsum, and limestone in December 2021 is lower than at the year-end of 2020 (0.91%, 56.31%, and 17.27%).

PRODUCTION OF MEAT, FISH, MILK AND EGGS

Out of all types of meat prescribed in table 2.9 fish, including freshwater and marine, had the highest production.

The number of pigs, sheep/goats and cattle that were slaughtered in December 2021 has increased by 4.13%, 3.70% and 1.96% respectively compared to December 2020. The production of meat has increased for chicken, pork, mutton, fish, duck and beef by 9.85%, 4.03%, 3.71%, 3.19%, 3.07% and 1.61% respectively in December 2021 compared to December 2020.

Annually, the number of pigs, sheep/goats and cattle slaughtered has increased by 5.58%, 3.78% and 2.18% respectively in 2020-2021 compared to 2019-2020. The production of meat has increased for all types of meat in 2020-2021 compared to 2019-2020: chicken, duck, pork, mutton, beef and fish production has increased by 12.67%, 7.15%, 5.57%, 3.92%, 2.24% and 0.95%. The production of duck eggs and hen eggs has risen by 27.39% and 19.14% respectively in 2020-2021 compared to 2019-2020.

CHAPTER 3 PRICES

PRICES ANALYSIS

CONSUMER PRICE INDEX AND RATE OF INFLATION

Consumer Price Index (CPI) measures the average change in the retail prices of goods and services purchased and consumed by households. In Myanmar, the Central Statistical Organization produces the CPI and the rate of inflation monthly, with data collection from 82 townships across all states and regions.

The weights used in the production of the CPI are based on the levels of household income and expenditure as observed in the 2012 Household Income and Expenditure Survey.

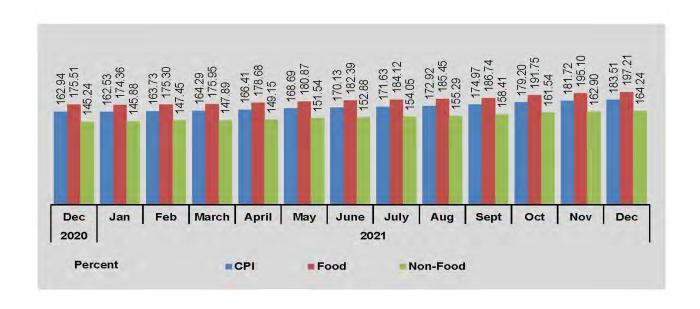

In December 2021, the CPI increased 1.79 points compared November 2021, leading to an annual rate of inflation of 6.22% and year on year inflation of 12.63%. Relative to the 2012 base period, the index number for the food group was 197.21, the non-food group was 164.24 and overall CPI was 183.51.

CHAPTER 7 **LABOUR AND EMPLOYMENT**

LABOUR AND EMPLOYMENT ANALYSIS

Labour and employment are critical factors in the production of goods and services. Thus, the improvement of the quality of the country's labour force and the efforts to make it more productive are crucial for the development of the economy. This chapter deals with the principal statistics of employment through Labour Exchange Offices and overseas employment in Myanmar. It also presents data on the distribution of new registrations, job vacancies and people who were placed into employment by Labour Exchange Offices in Yangon and other States/Regions. While the employment opportunities are greater in Yangon Region, there is also a higher concentration of job seekers in this region. In the whole country, the number of job seekers remains higher than the job opportunities.

EMPLOYMENT THROUGH LABOUR EXCHANGE OFFICES

The effect of the Coronavirus Disease 2019 (COVID-19) emergency is more evident in most recent monthly data (December 2021). In Yangon Region, new registrations decreased by 16.7%, vacancies notified, the number of submissions made for the vacancies and the number of people who were placed into employment increased for each by 41.5%, 40.7% and 41.1% compared with the same month of 2020.

In other States and Regions, new registrations increased by 26.6%, vacancies notified decreased by 27.7%, the number of submissions made for the vacancies decreased by 19.1% and the number of people who were placed into employment decreased by about 24.4% compared with the same month of the previous year.

In all States and Regions, the number registered, vacancies notified, the number of submissions made for the vacancies and the number of people who were placed into employment decreased by more than half during 2019-2020 and 2020-2021.

OVERSEAS EMPLOYMENT

Thailand, Malaysia, Korea, Singapore, Japan, the United Arab Emirates, and Qatar are the most popular overseas work destinations. In 2020-2021, Japan employed 95.9% of overseas workers, while Korea employed 3.1 percent. Between 2019-2020 and 2020-2021, overall overseas employment decreased by 97.3 percent. During the global COVID-19 pandemic , the overseas employment decreased by about 95.0% for Japan compared with the same month in 2020. From October 2020 to September 2021, licensed overseas employment agencies sent 4220 foreign workers to other nations.

LOCAL EMPLOYMENT

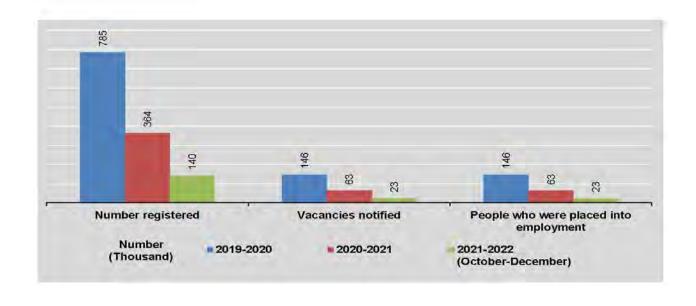

In December 2021, the number of people placed in the public sector through Labour Exchange Offices recorded for 8.8% of total placements, while the private sector recorded for 91.2%. The Yangon Region accounted for 64.6% of the workers, with the remaining 35.4% working in other States and Regions.

CHAPTER 7 LABOUR AND EMPLOYMENT

LOCAL EMPLOYMENT

The Ministry of Labour, Immigration and Population is primarily responsible for labour issues and aims to promote employment opportunities and to improve the income of workers. The Department of Labour has established 91 Labour Exchange Offices in districts and townships throughout the country and measures are being taken for Myanmar nationals at working age to enjoy decent work opportunities in Myanmar and abroad.

In the early period of 2020, atlhough there was an outbreak of COVID-l9 in most countries around the world, in Myanmar, COVID-19 has been spreading since March 2020. In October 2020, which was the COVID-19 period, due to people living in all townships which are located in Yangon Region except Co Co Kyun township were stayed on the Stay at Home program, shortage of raw materials in factories, industries, shops and workplaces, temporary closure and

permanent closure of factories, industries and businesses and the number of employed workers reduced by factories and establishments were happened due to COVID-19. So the number of registered job seekers, receipt of notices (vacancies notified) which are sent from employers who want to hire workers and the number of people who were placed into employment at Labour Exchange offices (LEOs) in Yangon Region under the Department of Labour were decreased.

But in October 2021, as the number of townships in Yangon Region where include in Stay at Home program were decreased, in accordance with the COVID-19 instructions issued by the Ministry of Health, factories, industries and businesses have reopened, the number of registered job seekers, receipt of notices (vacancies notified) which are sent from employers who want to hire workers and the number of people who were placed into employment at Labour Exchange Offices (LEOs) in Yangon Region under the Department of Labour were increased. Due to the delisting people who were placed into employment and people who have expired their labour registration from the registered job seekers list, the number of registered live and pending at the end of the period 2021 is lower than that of in October 2020. Because of these situations, The difference of the statistics between the period of October 2020 and October 2021 is high.
